I want to make sure the federal government doesn't send a big bill to business and households for the river cleanup.

It's important to remember that the river is also a key driver in Portland economic engine. We all love the Willamette and its role in our environment. But I hope that you'll also factor in the important jobs the harbor provides.

Thank you for taking time to read my comments. I wish you luck on finishing a plan that supports our economy and cleans the river.

Sincerely,
